

SOMO Adventure Mount Solar Light (Gen6)

Sonnenglas®

Light for a Brighter Future

SOMO + Adventure Mount

Lightshade transforms any bottle into an atmospheric table lamp – for indoors and outdoors. Just place it on, insert the SOMO, switch it on – and your personal light object is ready.

With the interchangeable Swapcover, you can redesign your Lightshade again and again. The textile cover is available in various designs and materials. The famous Sonnenglas® toggle switch integrated into the fabric enables switching on and off with a simple flip.

Lightshade is available for SOMO and SOMO Mini.
Design. Combine. Reuse. As often as you like.
