SOMO
Solar Light (Gen6)

Sonnenglas®

ONE SOLAR LIGHT – ENDLESS POSSIBILITIES

Welcome to the Solar System

SOMO is the solar-powered light module at the heart of the Sonnenglas® product range. It captures sunlight during the day to provide reliable light at night. SOMO is versatile and modular and powers all Sonnenglas products. It also works independently as a torch or a creative ambient light source.

Create light sustainably with the power of the sun —
wherever you are in our awe-inspiring solar system.

A MODULAR SOLAR LIGHT SYSTEM
